

GRANT CHANTER'S EQUINE DENTAL SERVICES

ENVIRONMENTAL AND SUSTAINABILITY STATEMENT

We are committed to leading the Equine dental industry in minimising the impact of its activities on the environment.

The key points of our strategy to achieve this are:

1. Minimise waste by evaluating operations and ensuring they are as efficient as possible.
2. Minimise toxic emissions through the selection and use of its vehicles and the source of its power requirement
3. Actively promote recycling both internally and amongst our customers and suppliers
4. Meet or exceed all the environmental legislation that relates to this company
5. Communicate with our suppliers the need for the products that we use are to be from sustainable sources, to be biodegradable where appropriate.
6. Donating a minimum of £18 per month to "Just One Tree", whereby every £1 plants a tree in the third world. It has been calculated that to be carbon neutral I need to plant 18 trees a month.
